## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The instantly claimed process for manufacturing acrylic acid from propane is neither disclosed nor fairly suggested by the closest art of record: Tadamitsu et al (JP 03-170445 07-1991, English translation). Upon further consideration the Examiner finds that Tadamitsu neither discloses nor fairly suggests the use of a sequence of two reactors as instantly claimed. The instantly claimed process is therefore patentable over the teaching of Tadamitsu, the closest prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
